Subject: Property Access Request

Dear Mr. Ganaway:

EA Engineering, Science, and Technology, Inc. (EA) has been authorized by the U.S. Environmental Protection Agency (EPA) to conduct a Remedial Investigation/Feasibility Study (RI/FS) at the Falcon Refinery Superfund Site (site). The purpose of this investigation is to collect Phase II ground water, surface water, surface and subsurface soils, and sediment data to support the RI/FS. EPA is requesting access to properties owned by Cabot Oil and Gas for the purposes of conducting the investigative sampling for the site.

EA and EPA have discussed this request with Mr. Scott Sherman of Bracewell & Giuliani LLP. He indicated that you would be the point of contact for Cabot Oil and Gas for this access request.

Please let me know if you have any questions or need anything else.

Thank you,

Bob Owens
